

Adonis Daniel's **PORTFOLIO**

Graphic Designer

2021

2025

Hello I'm Daniel Adonis.

I'm a **multidisciplinary graphic designer** with **4 years of hands-on experience** working with agencies, contractors, and as a freelancer.

I've worked on diverse projects that taught me this simple truth: **great design isn't just about looking good — it's about solving problems in a beautiful way.**

My style leans clean, intentional, and modern, and I love crafting visual identities that help brands feel like themselves — but better.

01. Logofolio

Over the past 4 years as a designer, I've developed a deep fascination with hieroglyphics, icons, abstract shapes, and logos.

This curiosity has led me to focus much of my creative energy on visual identity design — crafting logos that are not just unique, but built to stand the test of time.

**Here are 24 logos
I've created so far.**

9:41

02

Payaway Brand Identity

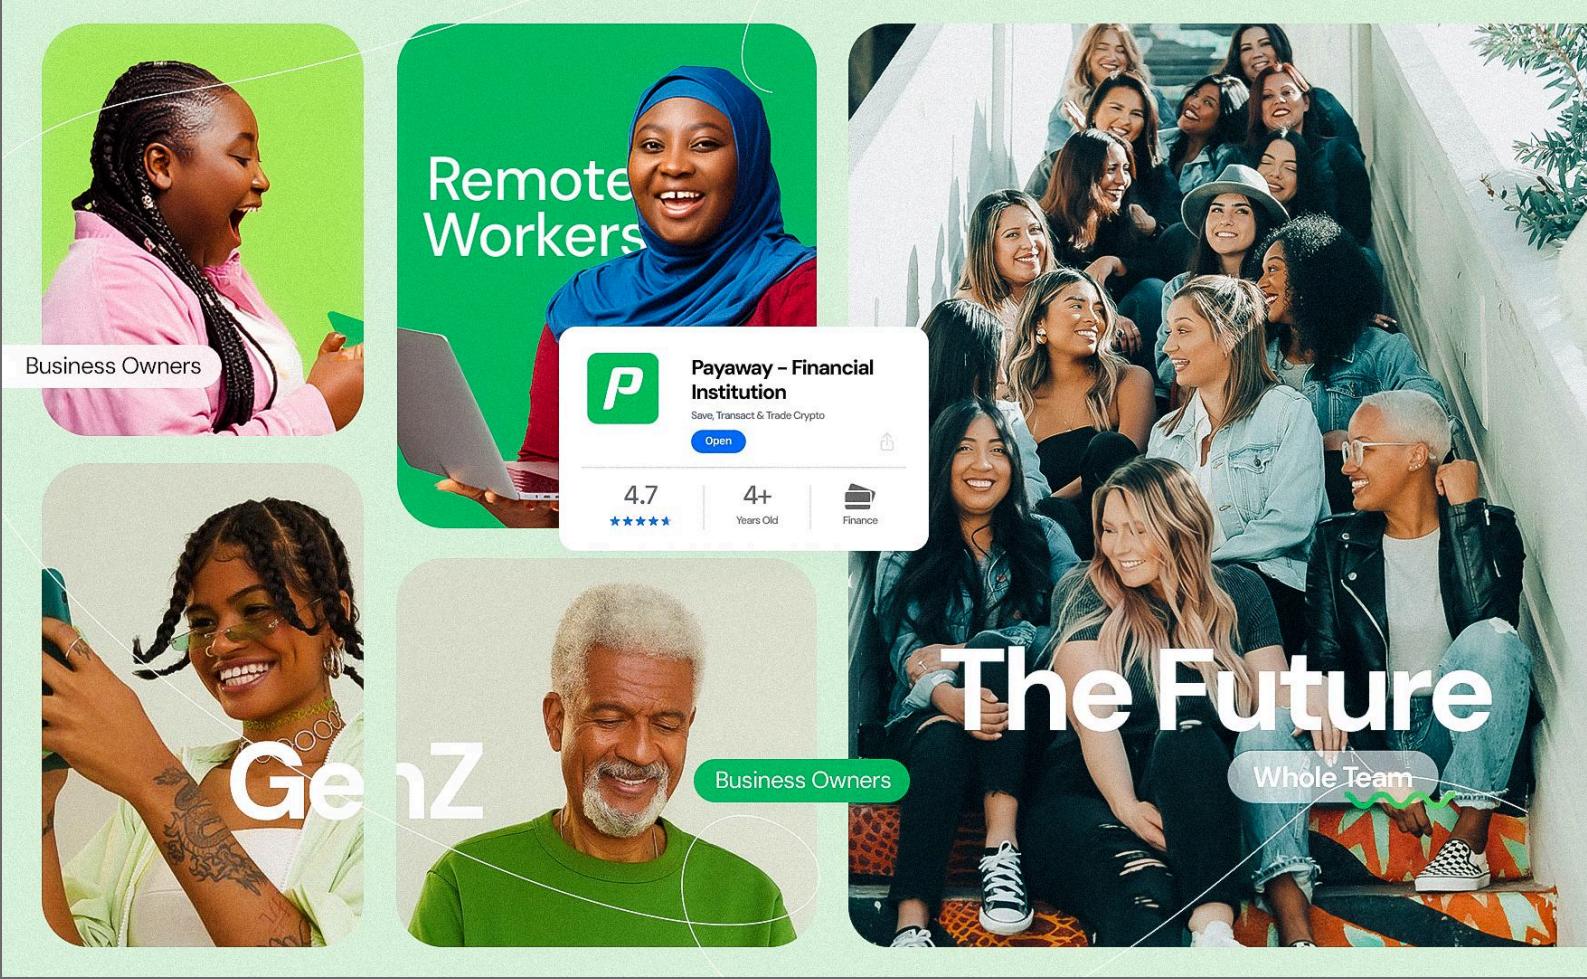

The idea behind the Payaway logo was to signify:

Speed A Bold Structure Visible

Hence the choice of the logo type, **A Word-mark**, it suits the brand because as a new and emerging brand in the fintech space, the first encounter should introduce the audience to the brand's name.

The logo went through series of iterations before arriving at this **“Work of art”** and it went uphill from the Logo.

Payaway targets a wide range of audience

Business Owners

Remote Workers

Payaway

Primary Option ↓

DM Sans

DM Sans is a **low-contrast geometric sans serif design**, intended for use at smaller text sizes.

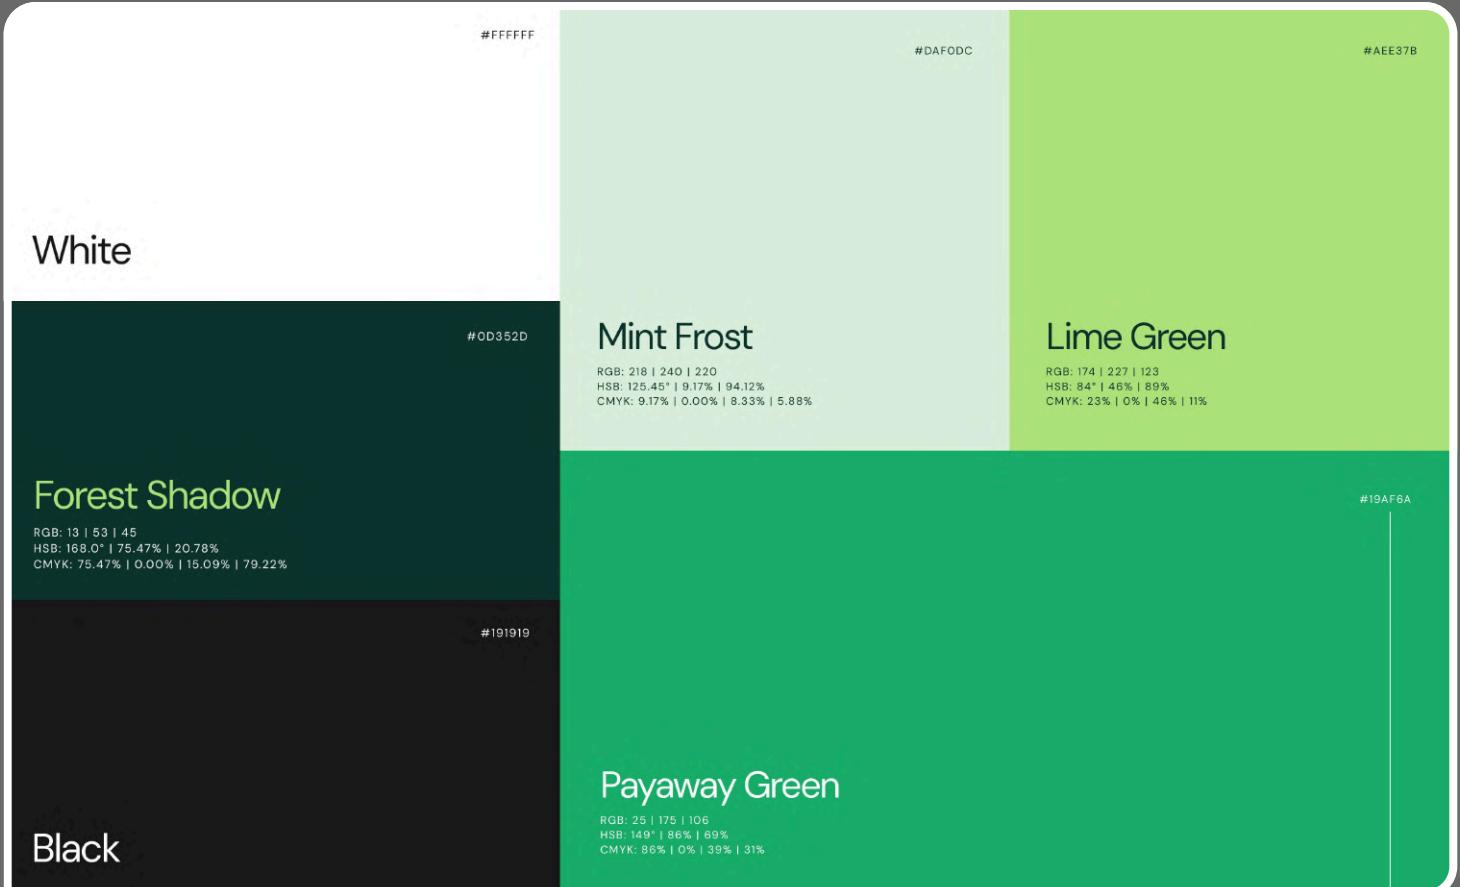

DM Sans supports a Latin Extended glyph set, enabling typesetting for English and other Western European languages. It was designed by **Colophon Foundry (UK)**, who started from the Latin portion of Indian Type Foundry's Poppins.

Pipevest Brand Identity

Contract | Visual Identity Design

About Pipevest

Pipevest offers a modular, developer-friendly platform that lets businesses integrate global investment products—like international stocks, bonds, commodities, forex, and soon crypto—across Africa. It's built for scale (handling 500K+ daily transactions, 26+ currencies, 20K+ international stocks, and aiming for half a million local assets) with top-tier security and full regulatory compliance.

Pipevest want to sound conversational, friendly and exude an Authoritative and Confident personality with every of their visual assets published.

They lean towards Minimalism and Futurism when making design choices.

Task and Strategy

The brand Pipevest already had a logo, and required little touch or adjustment to take it up the right notch, and also an overhaul of the color system, initially there didn't exist a proper visual system, and that had to be done and put in motion.

Fastest way to launch investment products

Join the growing number of companies using pipevest to diversify their financial product offerings, unlock new customer segments, and power new revenue models.

My Role

I didn't create these illustrations myself — my role here was more about guiding the visual direction and helping the client choose the best option. You could say I handled the Art Direction for this part.

You made it happen.

THANK YOU!

WWW.PLUS234ART.COM

It felt great to be part of the team to make this come to life over the course of the two months, handled every task like it was my last day as a designer, and even though i wasn't present at the event, I was ecstatic each time I came across shorts or clips fromm the event.

2022 - TILL DATE

Working on campaigns for a representative of Georgia.

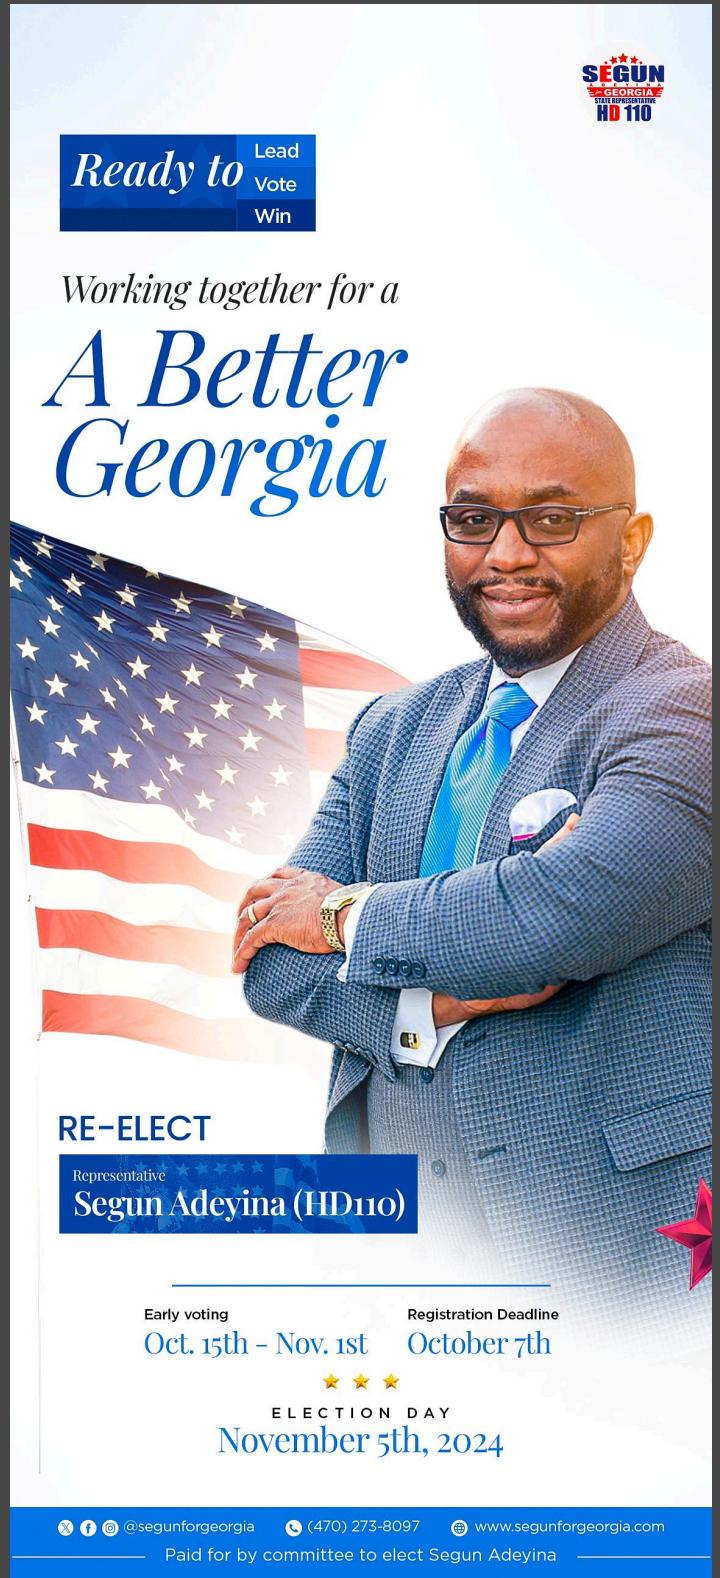

For nearly three years, I have
handled most of the graphic
assets shared on the social
media accounts of
Representative Segun Adeyina.

06

I've selected a few standout pieces that represent my time working with this prestigious client.

It will be tiresome to put in all of the
works from working with Rep. Segun
Adeyina, but this sums it all up.

I guess.

Mr Tobi and Intron

FOUNDER OF INTRON

I've collaborated with Mr Tobi and the Intron Team for few years so far, and we've made great designs together it's been fun, required a lot of patience, and communication in all, it's resulted in nothing but success each time.

07

Transforming African Call Centers with Voice AI

Supercharge your customer experience with Africa-centric AI-powered voice technology that understands **over 300+ African accents** and speaks in **80+ natural African voices**, converting call centers from cost-centers to profit centers.

What We Do, Our Core Solutions

Auto-Resolve

Handles 30–50% of calls (e.g. enquiries) autonomously, reducing agent workload, wait time, and handle time, covers after-hours and weekends, improving satisfaction

Auto Lead Gen

Intelligent Natural sounding conversational outbound call agent automates follow-ups, onboarding, collections, and telemarketing, raising revenue

Intelligent Agent Tools

Auto-summarize calls, real-time support, automate ticket creation

Emotion-Score

Predicts churn with advanced sentiment analysis, preventing revenue loss, Matches customers to products in real-time, qualifies leads in real-time

Agent-Score

Rates 100% of calls for QA, compliance, and coaching, boosting agent productivity and compliance

Voice Verify

Biometric caller verification, improves security and reduces handle time

Results You Can Expect

Enterprise-Grade Security

- AES-256 encryption (in transit & at rest)
- Role-Based Access Control (RBAC)
- ISO 27001 & SOC-2 compliant
